

RMCMA's participation at the recently concluded 6th Concrete Show India 2018

RMCMA's participation at the recently concluded 6th Concrete Show India 2018 (May 24-26/2918) at Bombay Convention and Exhibition Centre , BCEC, Goregaon , Mumbai meant being among over 150 Indian and global suppliers and manufacturers from industries including concrete and construction, concrete equipment, construction chemicals, commercial and industrial flooring, automations, software (ERP), project management, mobile construction tools, instruments etc, all vying with each other to showcase their products and services for key area such as roads and highways, housing, airports, ports, power, rail, tunnels, dams and bridges.

The 9 square meter RMCMA stall had banners exhibiting Quality Council of India's Ready Mixed Plant Certification Scheme (RMCPSC), RMCMA's RMC plant related training and certification programs, and a video film on air pollution measures RMCMA member companies take to make their plants as eco-friendly as possible.

Displaying the list of top brands in RMC industry at the stall meant entertaining visitors' inquiry about becoming a member

or associate member of RMCMA.

Sharing the information about the various activities of RMCMA with the inquiring visitors were aspiring two event management students. RMCMA staff took turns to train and support them for such events. Through their efforts they collected a bank of information about show exhibitors and stall visitors for future reference. Inquires received for RMCMA activities particularly for member ship and training programs would be pursued for their logical conclusion.
